MESSAGE *from* ADVISOR

Education is not a destination but a journey in itself that turns an entity into a human being which is the biggest need of the hour.

The core purpose of education is to provide children with a learning environment which brings out the best in them. We believe that every child is endowed with a unique set of attributes and abilities, which needs to be nurtured so that they blossom. Therefore, every child deserves an education that fosters academic excellence and all-round development, and ensures their well-being. We are inspired by these tenets in everything that we do at Step Up School.

We, at Step Up School, look at children as individuals and not as a class. We groom and nourish each child independently, for all required distinct attention. We build an atmosphere where each child explores multiple activities, and experiences challenges to find his/her own strengths. Life demands a healthy and intelligent mind, with a healthy body. Our curriculum has been especially designed to make it inclusive; where physical, emotional and mental needs are equally significant. Unlike the traditional method of teaching, where the focus is on the trainer, our approach is learner-centric. We maintain a democratic and participative culture with mutual respect and appreciation for individual values. There is a constant endeavour at our end to keep ourselves at par with the ever changing environment. Various orientation workshops are held at regular intervals for teachers to absorb the vision, align with the values and take ownership for our mission and the curriculum.

The school, next to the family, takes special responsibility in equipping children with the right attitude and skills that would help them become winners. Modern infrastructure, continuous realignment of curriculum, pedagogy and committed and skilled teachers are the ingredients of Step Up School.

As a concerned parent, your search for an effective collaborator to attend to your child's scholastic and versatile needs concludes at Step Up.
